Subject: Application for Internship Opportunity in Software Engineering

Dear Sir/Madam,

I am writing to express my sincere interest in securing a software engineering internship position at Kuraz Company. I am currently a fourth-year Software Engineering student at Mizan Tepi University, and I am eager to apply the knowledge and skills I have gained through my academic journey in a practical and innovative work environment.

I have completed several academic and personal projects using technologies such as HTML, CSS, JavaScript, PHP, Java, Spring Boot, React.js, and Next.js. These experiences have allowed me to build both front-end and back-end solutions, enhancing my understanding of full-stack development. I am confident in my ability to quickly learn and adapt to new tools and frameworks as needed.

I would be grateful for the opportunity to contribute to your ongoing projects and to learn from your experienced team. I am confident that my dedication, passion, and willingness to learn will make me a valuable addition during my internship period.

Thank you for considering my application. I look forward to the possibility of working with Kuraz Company.

Yours sincerely, Amlakie Abebebaw
